DETAILED ACTION

Response to Amendment

1. Examiner acknowledges the cancellation of claims 1-17, the claims directed towards a non-elected invention.

Allowable Subject Matter

2. Claims 18 and 19 are allowed over the Prior Art of record.
3. The Examiner's statement of reasons for allowance, indicated in the previous Office Action is repeated for the Applicant's convenience:
4. The primary reasons for allowance of independent claim 18 is the inclusion of the limitations of a system for generating hydrogen gas having all of the recited elements, in particular, a phase separator fluidly coupled to an electrochemical stack, the phase separator having a **metallic** (emphasis added) vent conduit fluidly connected and extending **vertically** (emphasis added) from the top and a **combustible gas sensor** (emphasis added) **coupled and electrically grounded to the vent conduit** (emphasis added). Although the Prior Art (for examples see Fig. 3 of US 6,468,412 to Bryan et al. below) indicate the inclusion of vents in combination with hydrogen gas generators, specifically, with phase separators, none of the Prior art teach the specific limitations emphasized above regarding the vent conduit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
